SUBJECT: Product Mercury Information

Some Lenovo notebook computers and flat panel monitors with compact fluorescent lamps rely upon mercury containing lamps for backlighting and lighting efficiency. These lamps and the products containing these lamps should be recycled or disposed of according to local, state, and federal ordinances and regulations. For more information about mercury and mercury recycling options, please visit:

[The Electronic Industries Alliance Consumer Education Initiative](#)

[The Interstate Mercury Education and Reduction Clearinghouse \(IMERC\)](#)

[Lamp Recycle.org](#)

[US EPA mercury information](#)

Lenovo is actively phasing out the use of mercury in products by shifting to new technologies such as LED backlighting rather than mercury containing compact fluorescent lamps. Lenovo computer models with LED backlights do not contain mercury lamps.
