Lenovo

A Turnkey solution to power the process of digital innovation with clear cost visibility

Lenovo TruScale Multi-Cloud with Deloitte is a turnkey hybrid cloud Platform-as-a-Service solution co-engineered between Lenovo and Deloitte that delivers a full Software-Defined Data Center. Deloitte's best-in-breed Cloud Managed Services and OpenCloud technology leverage comprehensive migration playbooks that can help you quickly realize the shortest path for cloud migration to fit your business challenges and goals. Lenovo's transparent pay-as-you-go approach ensures there are no surprises along the way, helping you stay in control throughout the journey.

Operationalize your environment. Enhance speed and efficiency.

We deliver a simple and direct path to modern apps and multi-cloud environments in one complete, automated platform. Our co-engineered turnkey solution brings the benefits of public cloud into your enterprise data center, on premises or co-location. With our secure, flexible and efficient solution, we help you maximize your ROI from infrastructure investments and empower your employees with rapid access to the technology resources they need to do their very best.

Our solution enables you to:

Simplify your cloud adoption strategy

Our architecture is compatible with most Cloud Service Provider technologies and on premises legacy environments.

Maintain business agility and control your budget

Monitor costs in real time with our flexible and transparent pay-as-you-go approach, with no upfront capital investment and no surprises, you only pay for what you consume.

Efficiently run mission-critical operations

Manage application and data-intensive workloads that are sensitive to regulations, security, compliance and service performance levels.

Reduce the risk of unpredictable load requirements without overprovisioning your infrastructure

Scale on demand, as and when needed, to simplify forecasting and procurement planning.

Tying together the innovation potential of the public cloud with the reliability of a hybrid infrastructure from Lenovo TruScale.

When looking to simplify and accelerate your cloud transformation strategy, think of us.

1

A managed solution

Lenovo IaaS lets leaders focus on driving digital innovation, leveraging the benefits of hybrid cloud with secure on-premise infrastructure for reassurance in an uncertain world.

2

Better together

Deloitte's cloud practice powers up the value of TruScale Infrastructure solutions by providing end-to-end hybrid cloud capabilities and scalability to Multi-Cloud environments, tailored to your business's needs. We handle the complexity so you can concentrate on your business.

3

Right size for any workload

Our expert team of Enterprise Architects will work with you to evaluate your business needs and design a solution that meets your demands, from day 1.

We can help you overcome your toughest business demands and provide you with technology that helps you innovate without constraint.

The power of end-to-end cloud capabilities and Deloitte's expertise in Cloud Managed Services, combined with the benefits of Lenovo's IT infrastructure is the right mix for your enterprise.

Working with Lenovo and Deloitte takes the complexity out of running on-premise data centers, giving you the time and resources needed to build the vision that takes your business forward.
